

## May Offer

### Smartphone or tablet home control starter kit for existing homes

Control lights, sockets and monitor your electrical usage with this wireless starter kit. Create lighting scenes or time schedules for lights to switch on and off easily. Remotely control your homes lights even when you are not there.

Included:

- Smartphone/Tablet Control Unit
- 2 x 13Amp wireless socket switches
- 2 x Wireless Dimmer light modules
- 1 x Wireless energy monitor
- Installation and commission

**Only €499 Inc. Vat\***

This system is designed as a starter home control system; this can be expanded over time by adding extra wireless lights, heating control, switches, cameras and more.

\*This Offer is available until May 31<sup>st</sup> 2013
